The Wellbeing Hub makes it easier for people in Nottingham to get the help and support they need - for mental health, drugs, alcohol, housing and more.

With Christmas coming up.... It is important to remember...

Collection days may change!

It is important you are checking with your pharmacist when you are due to collect prescription due to Pharmacy closure

Risk of Overdose

People may overindulge over the festive period, be aware of overdose if you choose to drink or use more than usual. **Be Aware!** You may be given additional unsupervised days of medication due to pharmacy closure. Please make sure you keep your additional doses safe and take as prescribed to ensure you have medication throughout the holiday period. Ask your Key Worker for a lock box. Please remember if your medication is taken by somebody who it is not prescribed for, they are at very high risk of overdose. **IF THIS HAPPENS RING 999 IMMEDIATELY.**

Have you got supply of Naloxone?

Naloxone can be given here at Nottingham Recovery Network and at The Health Shop. This could save your life or the life of a friend.

PROTECT YOUR'ELF THIS SEASON

1. CHRISTMAS CAN BE A DIFFICULT TIME FOR MANY PEOPLE, REACH OUT IF YOU ARE STRUGGLING. THERE ARE SERVICES OPEN FOR SUPPORT - PLEASE ASK THE HEALTH SHOP OR YOUR WORKER FOR INFORMATION.

2. CHECK YOU HAVE ENOUGH MEDICATION TO SEE YOU THROUGH THE HOLIDAY PERIOD WHEN SERVICES MIGHT BE CLOSED/HAVE REDUCED HOURS. MAKE SURE YOU STOCK UP ON ANYTHING YOU NEED SUCH AS EXTRA INJECTING EQUIPMENT, FOIL, CRACK PIPES/GAUZE AND CONDOMS/LUBE. YOU CAN COLLECT FOR OTHER PEOPLE YOU MIGHT USE WITH TOO.

3. MAKE SURE YOU HAVE NALOXONE THAT IS IN DATE AND IS A COMPLETE KIT.

4. BE AWARE OF TOLERANCE, ESPECIALLY IF YOU HAVE HAD A BREAK. TAKE EXTRA CARE IF YOU USE HEROIN THAT MIGHT BE MIXED WITH SYNTHETIC OPIOIDS SUCH AS NITAZINE THESE ARE SYNTHETIC OPIODS WHICH ARE MUCH STRONGER THAN HEROIN AND CAUSE INCREASED RISK OF OVERDOSE.

5. AVOID USING ALONE. THIS WAY IF YOU GO OVER, SOMEBODY WILL BE THERE TO HELP (EITHER BY GIVING NALOXONE, DOING FIRST AID OR CALLING AN AMBULANCE FOR HELP).

6. PEOPLE TEND TO DRINK MORE OVER THE CHRISTMAS PERIOD - MIXING ALCOHOL WITH OTHER DRUGS INCREASES THE RISK OF OVERDOSE.

IF YOU TAKE DRUGS THAT DON'T SEEM RIGHT PLEASE LET THE HEALTH SHOP OR YOUR KEY WORKER KNOW. WE CAN SUPPORT YOU TO GET IT TESTED (ANONYMOUSLY), WHICH CAN HELP IMPROVE HARM REDUCTION THE CITY AND SAVE LIVES.

GET HELP IF SOMEONE NEEDS IT. GET HELP IF YOU NEED IT.

Many residents may be struggling this winter to deal with increasing household bills, as the cost-of-living crisis continues, and the days become colder.

Nottingham City Council, partners, community and voluntary organisations, have opened up a number of buildings as warm spaces for any resident to freely access and stay warm during their opening hours.

These welcoming spaces at the heart of our communities, offer somewhere for residents to go to keep warm, meet other people, or even an alternative place to work other than their own home. Some of the spaces may also offer refreshments and activities, as well as information on how to reduce bills and access support.

Be Careful

If you think someone has taken an overdose Call 999

RECOVERY POSITION –

If someone has stopped breathing and you know the correct procedure, start chest compressions and loosen tight clothing.

If they are breathing turn them on their front with their head sideways with arms and legs as in the picture below. This is the recovery position. Stay until help arrives. Don't be afraid to call an ambulance because of drugs taken as they will not automatically call the police.

Give the ambulance as much Information on drugs taken as possible.

THE RISK OF OVERDOSE CAN INCREASE OVER THE FESTIVE PERIOD, SO REMEMBER:

- You'll get extra medication for when services and chemists are closed. Taking more than your normal dose in one go leads to overdose.
 - Be careful with other types of drugs – "Legal" does not mean "safe". Nobody knows what is in most new drugs on sale
 - Keep your medication stored safely where it cannot be reached by others, especially children.
 - **Don't** use Benzo's on top of your script or with other drugs or alcohol – even a small amount causes an overdose.
 - Mixing alcohol with your script or other opiates always increases the risk of overdose.
 - If you use after a period of abstinence your tolerance will be low and cause you to go over.
 - **Plan** ahead for any support you might need and be aware of when services are open.

Would you recognise the signs of gambling harm?

Gambling can affect physical and mental health, damage relationships and leave people feeling lonely and isolated. It can also cause problems with employment, education, housing and lead to serious debt.

Gambling products are widely used and strongly promoted by the industry. Gambling is commonly misinterpreted as being limited to casino-style games and to sports betting, yet there are many other forms of gambling including scratch cards, bingo, lotteries, and in-console gaming.

Gambling-related harm is under-recognised and often hidden. Many people being harmed by gambling don't see themselves as a person with a problem and don't recognise the issues it's causing. When people do recognise they may have a problem, it can hard to talk about it or to reach out for help because of guilt, shame or worry.

There are many signs which may help you recognise if gambling has become harmful to you, or someone you know. These include:

- Being preoccupied, struggling to concentrate or distracted by gambling
- Withdrawing from social activities to gamble instead
- 'Chasing losses' to try to win back money already lost
- Lying to others about the time or money spent on gambling

- Experiencing big changes to mood
- Having trouble sleeping

If you notice that you, or someone you know, is feeling stressed, anxious or isolated, or are thinking about gambling a lot of the time, it could be a sign of gambling harm.
