

Street Support Network's how to: Build a brand review with AI

What this guide will do:

This guide helps you and your team agree on three things:

- Who you are
- Why you matter
- How you talk about yourselves

No jargon. No complexity. Just 10 questions and a simple template.

How this works in 4 simple steps:

1 - Ask the Questions

Send the 10 questions below to your stakeholders — staff, trustees, service users, volunteers, partners — anyone who knows your work. We used Google Forms.

2 - Let AI Sort the Answers

Copy all the responses, however messy, into ChatGPT and feed it the brand review prompt (below).

3 - Check It Feels Right

Email the themes back to everyone. Ask:

"What feels right? What's missing? What feels off?"

Feed that back into Chat GPT

4 - Ask for a finalised document in the format of your choosing

You can now use this to share internally, externally and with Chat GPT as a foundation to help you with other tasks for your organisation.

The 10 questions:

- 1 - **Impact Story:** What's one moment where you felt our work really made a difference?
- 2 - **Future Headline:** In five years from now — what headline would you like to read about us?
- 3 - **Pride Point:** What's one thing we've done recently that you're proud of?
- 4 - **Hidden Strength:** What do we do well that we don't shout about enough?
- 5 - **Big Barrier:** What's the biggest challenge you can see for us in the next few years?
- 6 - **What's Missing?:** What do the people we serve still struggle to find?
- 7 - **Key People:** Whose support or trust do we need to succeed?
- 8 - **Trust Trigger:** What makes people decide to work with us?
- 9 - **One-liner:** If you had 2 sentences to introduce us to a friend, what would you say?
- 10 - **Wish List:** What's one thing we should start, stop, or change to serve better?

Draft Brand Review:

After you've pasted your collection of questions and responses from your stakeholders into Chat GPT, use the following prompt:

"I'd like you and others to understand the work of my organisation better. Organise the above answers into the following structure to create a brand review for [name of organisation].

Our 5 year vision (What does the world look like if we succeed? Example: In five years, everyone sleeping rough finds help — first time, every time.)

What we're best at (Top 5)

What could hold us back? (Top 5)

Who matters most to us (5 Groups)

What people need from us (5 Things)

How we work (our Values, 4–6 Words. Example: Trusting, Friendly, Grounded, Collaborative.)

What we're known for (One line that sums up what you want people to remember.)

Why we matter (What problem do we solve? Why does that matter?)

Our Key Messages (5 Headlines)

Short headline + one-line explanation

1. Headline: Explanation:
2. Headline: Explanation:
3. Headline: Explanation:
4. Headline: Explanation:
5. Headline: Explanation:

Quick tips

- ✓ Let AI do the work — paste messy answers into ChatGPT and ask for clean, simple versions.
- ✓ Read over everything yourself — if you're not sure if it sounds like you, read it out aloud. If you're still not sure, it probably doesn't.
- ✓ Check as you go — share drafts with stakeholders to make sure it feels right.
- ✓ Done is better than perfect — this should take 2 weeks, not 2 months.
